Writing

Author of *XSLT*, published by O'Reilly and Associates

- Makes a thoughtful gift for any occasion
- Created hundreds of stylesheets along with extension functions written in Java, C#, JavaScript, Python, and Ruby
- 50,000 copies sold and counting
- Translated into German and Russian
- Co-authored *Programming Web Services with SOAP*, also published by O'Reilly

Technical evangelist for *IBM developerWorks* in the late 1990s and early 2000s

- Wrote dozens of articles that generated more than 4,000,000 page views, including:
  - *An Introduction to XML* (the most popular article for dW's first 10 years)
  - *The Simple Cloud API* (a collaborative standards effort by Zend, IBM, Microsoft, Rackspace, and others)
  - *Save Time and Code with XPath 2.0 and XSLT 2.0*
  - *HTML to Formatting Objects Conversion Guide*
  - Cloud Computing with PHP: Amazon S3, EC2, and SQS (no longer online)
- Articles translated into Chinese, Japanese, Korean, Portuguese, Russian, and Vietnamese

Development

- 30+ years of development experience, writing code for everything from browsers to tablets to mobile phones to desktops to VAXen to mainframes
- Although primarily a Java programmer since 1996, have also coded for a living in JavaScript, PHP, C/C++, BASIC, and XSLT over the years
- Recent development efforts have used node.js, Angular2, TypeScript, NoSQL databases (primarily Couch and Mongo) Jade, Bootstrap, and IBM's Bluemix Garage Method (using Jenkins and Slack for CI and DevOps)
- Currently focused on IBM's OpenStack-based products and the Bluemix PaaS, writing single-page applications, business rules, and JavaScript front ends for IBM products
- Writing mobile applications with Ionic and Cordova, with additional coding in Swift and Objective-C

Education

- **M.S. in Computer Science**, Vanderbilt University: Focused on Software Engineering. For my Masters thesis I wrote a modeling program that studied the effects of marriage patterns on the spread of lethal genetic disorders.
- **B.A. in English**, The University of Georgia.
